

## **Requirements**

**Internet**

**000webhost account**

**Facebook account**

**Wikipedia open**

**Brain with 5iq minimum**

**1\$ Namecheap or Freenom account**

**Bitly PPC with small requirements**

**<https://ppcprotect.com/ppc-networks/>**

**Note this is just a side hustle earnings can be really big!**

**Okay, we'll be starting to create a website with ads. Yes, you heard me ADS.**

**Basically, for every click, you'll get paid. So that means if you get 1000 clicks you'll earn a lot of money lol.**

**Let's start right now!**

**Okay, firstly we need to find pick a niche. It doesn't really care what we chose honestly.**

**After you choose a niche we are going to create a website on 000webhost with a domain name. I'm not going to tell you how you sign up etc.**

**After you created an account press on creating websites then press installs Wordpress. (Add your domain name as well once you have one.) Once you did that Copy and paste some Wikipedia posts on your Niche.**

**So we got a FULL website with content. A domain name and free hosting. After that pick a PPC site, install their ads on your website. Then Join these groups:**

**[https://www.facebook.com/search/top/?q=click%20for%20click%20on%20ads&epa=SEARCH\\_BOX](https://www.facebook.com/search/top/?q=click%20for%20click%20on%20ads&epa=SEARCH_BOX)**

**These are clicks for clicks exchange. After you joined to create a post " Here is my website clicks on mine ads then post your link in the comments and I'll do the same.**

**Of course, we're not going to do that.**

**So people will click on your ads and keep posting regularly almost daily if possible**
