

VERGOGNE#5878 PRIVATE EBOOK

FREE LUXURY CLOTHING

Hello everyone and thank you for purchasing this **e-book**.

First, I would like to make you aware of the **risks** of this **method** if you do not comply with all the **instructions** here:

- **Multiple complaints and potential summonses to the nearest police office for fraud.**

If you comply with **everything** that will be indicated here, you will incur absolutely **nothing**.

MAP OF THE EBOOK

1 - Prerequisites

- a) - **Mandatory prerequisites**
- b) - **Optional prerequisites**

2 - Principle

- a) **What is the method**
- b) - **How to protect yourself**

3 - Optimize the method

- a) - **SE**
- b) - **Marketing**

4 - Proofs

PREREQUISITES

- a) - **Mandatory prerequisites**
- b) - **Optional prerequisites**

- a) - **Mandatory prerequisites**

The **mandatory** prerequisites are as follows:

- A **no-logs** VPN (not *NordVPN*) (PIA...)
- An **anonymous** SIM card
 - Fake ID (download fake scan)
- **Patience** and **patience**

- b) - **Optional prerequisites**

What follows is not mandatory but **beneficial**:

- **Top-of-the-range** clothing (Gucci, LV, Supreme, Yeezys)
 - **1:1** counterfeit
 - **StockX** invoices

The top for **stockx** invoices would be to have an **authentic** one by **email** or in your **stockx orders**, so that you can edit them to make **fake proofs**.

If you don't know where to find a **good quality** counterfeit, you can order on **repsnation** or **dhgate** but this represents an **investment** in addition to the price of the e-book and I am aware that not **everyone** can afford it.

If you have **top-of-the-range** clothes and you have the **invoice**, that's great!

PRINCIPLE

- a) - What is the method
- b) - How to protect yourself

- a) - What is the method

The **method** is based on **scam**. We will use **Vinted** and one of its particularities to generate **huge** funds and earn a lot of money.

The particularity of Vinted is that you can accept, when your item is put on sale, **exchanges**. And I reassure you, a **lot** of users use this feature of the site.

There are already some **kids** who are selling **counterfeit** goods. It's true, it works, however, it requires funds to invest in very, very **good quality** counterfeits, otherwise, it's a **refund request** you're going to take, not a 500\$ bill, and I remind you, **we don't have time to have time**.

If you still don't understand, we will put our **clothes** on sale and accept **exchanges**. The **advantage**, for exchanges, is that the **majority** of users ask that the mutual sending of the package be done **at the same time** at your home as at theirs.

You understood this, we will send **empty** parcels to the interested users, and still we are doing **exchange**, we will receive their items. However, it is not that simple, there are **several** aspects of this scam that we will **review**

- b) - How to protect yourself

Before explaining how the method works, it is important to take good precautions and know how to protect yourself.

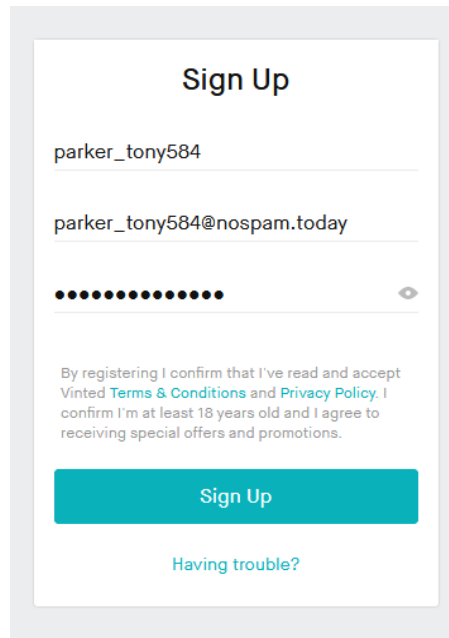

First, we must create an account for ourselves, but above all, we must be on **VPN**.

I've already explained to you that I don't recommend **NordVPN**, you'd better use **PIA** or a VPN like that, which is for sure.

Open a new **private** navigation tab (this will prevent a **collision** between

your two types of accounts if you already have a Vinted account or if you later want to sell legit items).

You are now connected **under VPN** on a server in the same state as yours. Now is the time to **register**.

A screenshot of the Vinted 'Sign Up' form. The form is white with a light gray border. At the top, it says 'Sign Up' in bold. Below that are three input fields: the first contains 'parker_tony584', the second contains 'parker_tony584@nospam.today', and the third is a password field with 12 dots and an eye icon to its right. Below the password field is a line of text: 'By registering I confirm that I've read and accept Vinted Terms & Conditions and Privacy Policy. I confirm I'm at least 18 years old and I agree to receiving special offers and promotions.' At the bottom of the form is a teal 'Sign Up' button and a link that says 'Having trouble?'.

As username, use something **related** to the name of your **fake ID card**. If your card have the name "Tony Parker", use the username "parker_tony584", for **example**.

For the email address, I advise you <https://nospam.today> to create **temporary** emails which you **keep access** after use. For the password, be **creative**!

Once you are **connected**, this is where the serious **business** begins. The **advantage** of this ebook is that you already have **photos** of high-end clothing **provided**, enough to make your first scam a **success** quickly!

After your **registration**, you will probably have to check your phone number, do it with the **anonymous** SIM card you bought before.

Click on the "Sell your items" button and let's go!

Go to one of the folders attached with the e-book, for the example I will use the **Triple S Full Black**

Upload as many photos as possible (5)

For the title, you need something **explicit**.

In the description, it is important to state that you are only **interested** in
exchanges / trade

Ajoute jusqu'à 5 photos.

Titre

[TRADE] Balenciaga Triple S Full Black

Décris ton article

TRADE Only VS Gucci, LV, Supreme or other

Choose the category, brand, size, etc. and **post** your ad!

Now all you have to do is wait for your **victims**!
Our publication will generate about **500** views every **24 hours**. Don't worry,
you'll make **money**!

OPTIMIZE THE METHOD

- a) - SE
- b) - Marketing

a) - SE

To use this method **correctly**, you will need to **master** a minimum of social engineering. First, remember that **you will never send the package first**. When you are contacted by potential buyers, do not hesitate to **pretend to be someone who has already been the victim of a scam via exchanges on Vinted**.

If you see that your victim is **doubtful**, you can **reassure** her **indirectly** by offering him a « photo of the parcel » exchange. Tell her you'd rather she send you a **picture** of her **ID card** and you'll do the same "in case there's a problem"

You will need to plan in advance for a box that will look like a **fake package** to prove to the victims that you have **carefully prepared their package!**
This will allow you to reassure them **indirectly**.

You may feel that you have won the game if your victim suggests that you send the package **at the same time**. You will have to **trust** her and **pray** for her parcel to be sent at the right time, so that **you receive it before** your victim.

Another advantage of Vinted is that once the **packing slip has been printed**, it is **impossible to print it once again**, which means that in general, your victim **will not be able to call your parcel relay to ask for a return of the package**.

In general, I prefer to **negotiate** so that victims send their packages **first**, sometimes it works and sometimes it doesn't. That's why from one day to the next, you may need to send **nothing** and therefore move **physically to post an empty package**.

A last point before **moving** on to the **Marketing** category, is a nice little method that allows you **to be sure that this scam will not cost you anything**, it's always nice to be able to **reassure yourself**.

We're not going to lie to each other, if one of the people you're ripping off **complains** in a **police station**, cops wouldn't care **at all...** unless your victim has **family in the police**, or something else. For this purpose, I thought of a **small SE method** that is relatively simple to implement and which will **immediately** reveal to you if your interlocutor has any **connection with the police**.

Just say something like:

- "Could we send each other pictures of our ID cards in case there's a problem? I have family in the police force and I don't hide from you that they can't do much without at least the ID number."

If your victim **knows** someone in the police force, his or her response will be like:

- "Oh yes, I know someone too [...]"

Too easy!

b) - **Marketing**

The goal will be to make your **fake** items as visible as possible, so as to scam as many people as possible.

First of all, a good way to **increase** the **visibility** of your **publication** is to put the price of your article at **\$1**, this will **attract curiosity**.

If you do this, it is **imperative** that you use the **[TRADE]** tag in the title of your ad, otherwise **jokers will have fun buying it to piss you off**, and you will have to **repost** the publication.

When writing in private message, you must be **irreproachable**. Be **cool**, **offer arrangements** to your **customers** so that they **trust you** and you will **inspire trust**.

PROOFS

This part of the **e-book** is intended for **proof** of **all** the **articles** I have obtained. I **discovered** this method only **2 weeks** ago.

Balenciaga Speed Trainer S :

Supreme x Brooklyn Tee :

Supreme x CDG Tee :

I also had a **Airforce 1 Low Black x Off-White** but I sold it.

TTL :

Supreme x Brooklyn Tee L = 584€

Supreme x CDG Tee L = 368€

Balenciaga Speed Trainer S = 595€

Nike Airforce 1 Low Black x Off-White 42 = 1,197€

I made a **total** of **+2500€** in **two weeks**.

You are free to **sell** or **keep** your items

This is the end of this e-book, if you have any **questions**, feel **free** to contact me in a private message on **Nullled!**
